Introduction

Within the last few years, the volume of trading associated with cryptocurrency has been growing rapidly. In our opinion, these volumes will only grow in the future, and gradually displace Fiat from leading positions. The future belongs to cryptocurrencies, this is absolutely certain, and an increasing number of experts strive to agree with this. Hundreds of thousands of projects have already been built on the blockchain, and millions of people are involved in this work.

Exchange ZOOMEX - your guarantor for the exchange of cryptocurrency. Let's create the future together!

Why ZOOMEX

1. Many crypto exchange are poorly equipped technically, which in the long can lead to big problems, losses and unnecessary stress. The people who utilize crypto exchanges, in general, prefer a simplified platform that will help safeguard them from these possible negative outcomes. In our team, we have a staff that has worked with several successful large crypto-projects that function perfectly to this day. We clearly represent the future development of the cryptocurrency market and we will follow the planned path with you.
2. ZOOMEX is completely protected from hacking and theft. Our exchange was created using high security standards, technically tested for penetration and follows, first of all, the rule of safety of its customers.
3. Focus on customer service. We clearly understand that the speed of response to a request from a client is a key factor in the conditions of a rapid change in the market. You will receive

a response from members of the technical support team taking into account the network load, with a strong increase in its staff will be expanded to the required value. You will always receive our qualified assistance on time and on time, which will come from quality specialists, and not from a robot working with scripts.

4. We are international. Our support service works 24/7 worldwide and in most state languages, we will always help you solve your problem without creating discomfort and unnecessary inconvenience.

Our advantages

1. Our exchange is built on an engine that can handle more than 1.000.000 orders per second, you will not have problems with the hang or network overload

We start working with trading pairs of the following coins:

- BTC
- ETH
- LTC
- ARCT
- ZXE

We will add to the exchange only tested coins, with its own user base. If you want to place your coin on our stock exchange, leave a request in the appropriate section for verification.

2. We provide our own WEB-client for trading on the exchange
3. Initial support will be provided in Russian, English and Chinese. In the future, the number of support languages will increase.
4. We will accept projects for placement with a small capital on special conditions, the own client base of the project and its relevance will be important components. Projects submitted for placement on the exchange will be thoroughly checked; if gross violations or signs of fraudulent activity are found, projects will be excluded.

5. Low trade commission, which will be only 0.05% of the transaction. Not everyone can provide such conditions. Our goal is to develop at our own expense, not attracted. For the holders of ARCT and ZXE tokens, the trade commission will be further reduced. Terms will be posted later.

6. To eliminate manipulation of the exchange tokens rate, we will buy out a certain number of them every 1-2 months, and a certain number of coins will be burned.

7. For literate startups, projects that carry great value, certain exceptional conditions for the placement of coins will be created, check details in the appropriate section.

Start preliminary and Public Sales

To participate, simply follow the link <https://www.zoomex.com>, register and make a deposit.

Go to trade ZXE / ETH and purchase the required number of tokens.

We draw your attention to the limitation, the minimum purchase is 15,000 ZXE at a price of 0.00007000 ETH.

When purchasing a 300,000+ ZXE at a price of 0.00006000 ETH, a 750,000+ ZXE at a price of 0.00005000 ETH, you need to send an email to ico@zoomex.com or PM @DrGrow.

Weekly trade tournament

On our exchange you will have the opportunity to win valuable prizes, with a minimum of effort, we will develop many new things with good prize funds! We present our first tournament! Tournament for active bidders!

The pair for trade, which will be held the tournament will be determined by the community or developers and published a few days before the start of registration for the tournament.

You will need to pre-register for the weekly tournament in the appropriate section.

Terms of participation in the tournament:

You need to hold on your account on the ZOOMEX exchange ZXE tokens in a pre-announced amount for several days before the start of the tournament

You need to apply for participation in the appropriate section.

Example of scoring points:

BTC / USDT pair

User 1: on the balance of \$ 100, as a result of exchange transactions by the end of the tournament on his account was \$ 110, profit - 10%

User 2: on the balance of \$ 10,000, as a result of exchange transactions by the end of the tournament on his account was \$ 10,500, profit - 5%

User 3: on the balance of \$ 1,000, as a result of exchange transactions, by the end of the tournament, on his account was \$ 1,350, profit - 35%

Winner - User 3.

Thus, the participants profit will be calculated automatically and prize places will be distributed!

1. Registration of those wishing to participate, if the conditions are met, is held every weekend in the appropriate section
2. Start of accounting trades (Monday)
3. Completion of accounting trades (Friday)

4. Distribution of prizes

What kind of prizes will await the participants of the tournament will depend on the chosen pair for bidding before it starts. It can be BTC, ETH, ZXE tokens and others.

The distribution of the prize fund (may vary):

1 Place - 60%

2 Place - 25%

3 Place - 15%

Accounting trades:

Bidding registered users to the tournament will be counted in the period of tournament.

The average percentage of profit / loss of all transactions for the entire period is taken into account.

Unclosed transactions at the time of counting will be counted at the latest price.

Remuneration Fund:

1. Fixed

2. Dynamic from the collected fees for transactions of participants

Team

Kirill Korzhenkov: CEO (Chief Executive Officer)

Competencies: Programmer, Trader, Founder of the ZOOMEX exchange

About me: I was born in Moscow region, from an early age I have been interested in IT-technologies. Began, like many with online games, later, after graduation, IT and eSports became a familiar type of earnings. I started working with online projects as a technical specialist since 2014. In parallel with the work, I studied programming in depth. Creator of the cult successful project "Arbitrage Crypto Trader". The next step after the creation of an arbitrage trading terminal was obviously the creation of its own stock exchange for further development. Permanent participant of the IT forums "TB Forum 2014-2018", "Infosecurity Russia 2013-2018" and many others ...

Vladimir Baryshnikov: CMO (Chief Marketing Officer)

Competences: Entrepreneur, PR Specialist

About me: From 2014 - head of the advertising agency Glare Digital, head of the tattoo studio chain Chicano-Tattoo. A graduate of the Higher School of Economics with a degree in Psychology. At current positions I do advertising projects, personnel management, marketing in small business. After the launch of the project "Arbitrage Crypto Trader" in the competence of Kirill Korzhenkov there could be no doubt, I gladly accepted the offer to work in a team. Fully confident in our project ZOOMEX, no doubt in its rapid growth in the world of cryptocurrency.

Vadim Matveev: CISO (Chief Information Security Officer)

Competence: Analysis and Risk Management

About me: I have a higher technical education. Work experience in leadership positions over three years. In 2015, dreaming about entering the civil service, I became interested in the Security segment. Since then, I have been studying in detail the issues of information and economic security both in the real world and in the media space. I successfully completed the MIS Training Institute courses at the Microinform Training Center. I am engaged in the development of documentation on information security that fully meets the requirements of international standards ISO \ IEC 27000-series. I worked with CRAMM, COBIT, ITIL library and other documents on information security.

Understanding the importance and significance of this field, I decided to join the young and progressive ZOOMEX team.

I am sure that my knowledge and skills will help ensure the successful development of the project.

Risks

There are a great many risks associated with the exchange of cryptocurrency, we clearly understand this and seriously assess the activities of our team. We make every effort to minimize and exclude them. For us, safety is paramount. Many projects have failed due to non-compliance with basic measures to ensure them. Our team has developed its own security standards in accordance with the requirements of international standards for information security. We strive to become the best in this direction.

Competition

We understand that hundreds and thousands of teams want and already carry out cryptocurrency exchanges, healthy competition has always been a quality catalyst, in this we will correspond to the best in the industry. Our team has a very important experience with such projects, from the very beginning we will continue to strive only for the best indicators of the quality of service and maintenance. Join now!
